## **THERE ARE NO SHORT CUTS**

We are proud to present to you our MAIN CAMP SELECTION PROCESS. The Kootenay International Junior Hockey league is in the process of pursuing the opportunity to become a member of the Canadian Junior Hockey League. This essentially means we would become a Junior A league under the governing body of Hockey Canada and represent the province of British Columbia. This is an incredibly detailed process to achieve this privilege if we are successful. Time will determine the outcome, but this is our focus. Our Main camp VISION is to have an elite setting of players competing for a roster spot in our program.

We continue to create and recruit for a 4 - DAY experience in how and why we approach things within our program on and off the ice. Our goal is to build a consistent farm system of future players as well continue to grow our present players leadership skills to tie into the on-ice development. To establish our culture and Identity as an elite program is always a work in progress. This camp will set that apart from most camps you will attend in detail of complete player development as well the professionalism our program offers our players and families.

Our goal for the parents and players is to receive the value and information in knowing your needs and expectations as well as ours at the conclusion of the 4 - DAY weekend is met. We pride our program on many detailed elements to give you opportunity as a player, but the WORK comes back to you. The COMMITMENT comes back to you and in today's world the most needed is the RESIELENCE to push forward comes back to YOU.

The Chase Heat Junior hockey program would like the opportunity to have you and your family attend to begin the process of potentially playing with in our program in the upcoming season or to establish a relationship with our program for the future. We are constantly looking to build our pipeline of prospects & establish relationships. Our Main camp will accomplish this.
